LinkTheater™ HD Wireless Media Player

2 YEAR WARRANTY

LinkTheater High Definition Wireless Media Player streams your multimedia contents from DLNA media servers, NAS, PC and USB mass storage devices in your home network. The device supports a wide range of video, audio and image formats. Camcorder users can connect their devices via USB and play AVCHD and HDV videos on TV using HDMI or Composite (SCART adapter attached). The direct copy feature can be used to copy the contents from a camcorder or a camera to an USB hard drive connected to the rear without using a PC. The Wireless interface is based on 802.11n Draft 2.0 standard, providing sufficient speed for streaming high definition content. Uninterrupted streaming and display of all your digital high definition media on your home network - directly to your TV!
